

FOR IMMEDIATE RELEASE

The Village of Gilberts is proud to announce that premier appliance maker Sub Zero is locating a facility in Gilberts.

Sub Zero is opening a new 225,000 square-foot warehouse in the Interstate Partners Prairie Business Park. This facility will include 2,000 square feet of office space and employ 10-12 people upon opening.

Village President Rick Zirk states “Economic development efforts by the Village brought a premier company and jobs to our community. We welcome Sub Zero to Gilberts.”

Launched in 1945, the Sub-Zero Freezer Company introduced the first system for preserving food at ultra-low temperatures - literally sub-zero. The company quickly established a reputation for quality and innovation.

Sub-Zero has always set its sights on high standards. Their products are built in American facilities enabling control of every step in the manufacturing process. All materials are premium grade, the technologies state of the art, and the craftsmanship of the highest caliber.

Sub Zero states “Sub-Zero Group, Inc. is very happy to join the community.”
