Exhibit F – Conditions of Approval

1. Parapet back material must be painted or finished with a color matching façade walls.
2. Mechanical equipment on the roof must be shielded whether by the parapets or other shielding material so as not to be visible from ground level.
3. Wall signage as presented is approved. Ground signage will be limited to the front monument sign and directional signs per the Unified Development Ordinance.
4. The development must adhere to the Building-Owners' Association covenants and restrictions as verified by a letter from the organization prior to building permit.
5. Utility meters will be limited to the rear (south) wall or the southern-most portion of the east wall and shielded from view.
6. Roof access will be from the interior via a roof hatch.
7. Scuppers and downspouts are to be similar metals as other building exterior finishes and matching in color.
8. Seating area fencing and the trash dumpster enclosures will be per submitted specifications with the dumpster enclosure doors to be solid/opaque so to minimize blowing trash and the masonry side walls to match the building in color and texture.
9. Parking setbacks are approved per the January 17, 2017 site plan.
10. Petitioner will submit all engineering, stormwater, architectural, mechanical etc. plans as required by the Village's standard commercial permitting process.
